

North Tarrant Express 35W Segment 3C Alliance Connector

The **North Tarrant Express (NTE) 35W 3C project** is the culmination of 10 years of progress and growth in Tarrant County. This more than \$1 billion project has transformed 6.7 miles of Interstate 35W between North Tarrant Parkway and Eagle Parkway.

The project includes:

- **Reconstructed main highway lanes**
- **Expanded frontage roads**
- **Addition of two managed lanes in each direction**

Connecting downtown Fort Worth and the Alliance development into Denton County, this segment helps create a safer, faster and more reliable movement of people, goods and services.

CINTRA

For more than 50 years, Cintra's innovative transportation solutions have helped drivers and commerce move around safely. Cintra and its partners manage more than 90 miles in the US with managed lane projects in Texas, North Carolina, and Virginia. Cintra-managed highways have generated more than \$22 billion in economic impact in the US.

Construction Facts

- 6.7 miles of IH 35 W
- 79 subcontractor firms
- 23 supplier firms
- 33 professional services firms
- 5,203 workers attended Safety Orientation
- 500+ beams
- 500 K square feet of MSE walls
- 4.58 M labor hours

SUCCESSFUL PARTNERSHIPS

Public-sector vision and private-sector competition bring local job creation, transit solutions, and innovative methods, at no cost to the state. P3s allow for vertical integration of construction teams, which saves time and money. This project is an example of a successful partnership, delivered three months ahead of schedule.
